Conference Chairs

Dear Colleagues,

On behalf of the European Association of Psychology and Law (EAPL), we are pleased to invite you to the Annual Conference of the European Association of Psychology and Law, which will take place in Almada, Portugal, in 2024.

The European Association of Psychology and Law (EAPL), founded in 1982, promotes the exchange between Psychology and Law, both in research and practice. Each year, the Annual Conference is organized in a different European city, bringing together researchers, practitioners, and other parties involved in legal settings. The aim of the Conference is to promote and improve new research, applied programs, and legal procedures.

During the Conference, there will be a series of invited keynotes, workshops, open papers/symposia, poster sessions, blitz talks, featuring outstanding academics, professionals, and emerging bright scientists. You will have the opportunity to engage in various networking activities, allowing you to meet and interact with leading scientists and researchers, friends, colleagues, as well as sponsors and exhibitors.

The social program will highlight Portuguese culture and history, showcasing the beauty of Caparica, the city hosting the EAPL Annual Conference.

We are grateful for your presence and hope that you will enjoy both the Conference and your stay in Portugal.

EAPL ANNUAL CONFERENCE 2024 - New Challenges in Research and Practice

The scientific program will address key issues in psychology and law. Various areas of forensic psychology and criminology will be explored, including forensic risk assessment and management, victims and offenders, biological and genetic bases of violence, investigative psychology, forensic and psychological assessment, criminal investigation, AI, and new technology approaches. Researchers and practitioners from Europe and other parts of the world are invited to share their recent scientific work and field experience concerning new challenges faced in legal processes.
